Since 2012, the Management of CRUCEROS MÁLAGA S.A. is committed to the implementation and execution of an Environmental Management System based on the UNE EN ISO 14001 standard, in accordance with the following actions and guidelines:

- ✓ Commitment to satisfy our clients' and other interested parties' needs and expectations, and to comply with the requirements related to the service.
- ✓ Personnel training and motivation, adapting their know how to current and future needs to enable them to perform their activities in a manner that is responsible and respectful with the environment, with a view to expanding the business towards other sectors of activity.
- ✓ Absolute respect for current rules and regulations, and for other requirements that the organisation supports and that are linked to the environmental aspects identified in the performance of our activities and their impact on the Environment.
- ✓ Plan and manage the provision of our services, their environmental aspects, seeking better results of efficiency and lower environmental impact, within our environmental context, mainly the consumption of light and water, ensuring the prevention of pollution and favouring the sustainable development of our activity, as part of our commitment to protect the environment and specific commitment related to the context of the organization.
- ✓ Identify, assess and review the environmental objectives and aspects related to the activity carried out by CRUCEROS MÁLAGA S.A.
- ✓ Continuous analysis of results and establishment of actions geared at the continuous improvement of the organisation and the effectiveness of our Management System.

With this Integrated Management System, we are committed to complying with our clients' legal and regulatory requirements, and with others that we may assume, such as our own internal requirements, and define a process for the constant improvement of our activity.

The Environmental Management System is periodically revised by the company's management, which participates actively in its analysis and improvement, and is responsible for making it known to the entire staff, which in turn collaborates actively in its fulfilment.

This Environmental Policy is understood, implemented and updated at all levels of the organisation and has the FULL SUPPORT of the Management of CRUCEROS MÁLAGA S.A., which is responsible for its establishment, development and application.
